

You can search for a word in a pdf file by using **Command F**.

**Command F** – hit the “**Ctrl**” button and “**F**” button at the same time.

A box with a “**Find**” prompt will pop up. Just type in the word (or part of the word that you are looking for, e.g. “metoprolol”).

Then click on the “**Find next**” button to go to the next instance of the word.
