Hello Dr. Carlisle,

We are emailing you regarding a follow up to our 90 day-supply project. After investigating more, we found out that Ohana Health does allow patients to receive a 90-day supply of medications. AlohaCare Quest, Ohana Health, and UHC Quest also allow 90 day supply of medications. The only one that does not allow for 90 day supply is HMSA.

Because the COVID19 Public Health Emergency has ended the above may change.

Thank you,

Germain Atmospera & Trent Furuta
